RESEARCH INTERESTS

Develop novel, and adapt existing, computational methods for analysis of large neuroscientific data sets to further understand the brain. Specifically interested in adapting and applying these methods to calcium recordings to quantify and understand shifting of neuronal network dynamics in the cortices and hippocampus under varying stimulus contexts.

EDUCATION

PhD	Biomedical Engineering, Boston University	2019 - Present
	Dissertation: "Machine Learning Framework for Analyzing State-Dependent Neuronal Network Dynamics in Calcium Recordings"	
	Advisors: John A. White, PhD & Mark A. Kramer, PhD	
MS	Biomedical Engineering, Boston University	2019 - 2022
BS	Biomedical Engineering, University of Miami	2015 - 2019
	GPA: 3.8, Cum Laude	

PROFESSIONAL AND RESEARCH EXPERIENCE

Graduate Research Assistant	March 2020-present
Neuronal Dynamics Laboratory (NDL), Department of Biomedical Engineering, Boston University	
Advisor: John White, PhD	
<ul style="list-style-type: none">• Develop and adapt dimensionality reduction (DR) machine learning methods for rigorous neuronal network dynamic analyses recorded using calcium imaging under various neural contexts.• Design analysis pipeline for rigorously characterizing neuronal network dynamics under: increasing concentrations of anesthetic sedation, and natural and artificial memory recall.	
Associate Engineer	May 2019 – August 2019
Bio-Vitro Inc, Supervisor: Siddarth Rawal, MD	
<ul style="list-style-type: none">• Optimized design of previously constructed fluid handling platform for automated cell culture and cell signaling analysis under physiological conditions for production and sending to collaborating labs.• Supported/troubleshoot collaborators with use of produced platforms.	
Undergraduate Research Assistant	May 2018-August 2018
Research Experience for Undergraduates – Neurological Prosthesis Research Laboratory, Department of Biomedical Engineering, Duke University, Advisor: Warren Grill, PhD	
<ul style="list-style-type: none">• Modified and completely automated a fully computational, Deep Brain Stimulation, Parkinson's Disease (PD) Neurological model to use experimentally recorded data as inputs.• Modeled PD in rat brain using upstream, experimentally recorded, neuron firing as input to simulate, characterize, and analyze downstream Thalamus function and activity to assess effectiveness of Deep Brain Stimulation as treatment for PD.	
Undergraduate Research Assistant	May 2017 – May 2019
Physiometric Microsystems Laboratory (PML), Department of Biomedical Engineering, University of Miami	
Advisor: Ashutosh Agarwal, PhD	
<ul style="list-style-type: none">• Developed automated pipelines for microscope image data acquisition, processing, and analysis.• Wrote front-end software to allow end user to easily process and analyze images.• Designed, prototyped, and manufactured an integrated and automated platform for continuous cell culture and dynamic cell secretion analysis of microphysiological systems.

Student Analyst

January 2017 – May 2017

Department of Continuing International Education, University of Miami, Supervisor: Magaly Abreu

- Developed early iteration of real-time, self-updating student database to ease pulling of information.
- Created financial reports to present data more clearly and concisely.

JOURNAL PUBLICATIONS

- D Carbonero**, J Noueihed, MA Kramer, JA White, “Linear Dimensionality Reduction Methods for Analyzing Neuronal Network Dynamics in Calcium Recordings” (in preparation)
- J Noueihed, **D Carbonero**, FR Fernandez, JA White, “Balance of Excitation and Inhibition in the Primary Somatosensory Cortex Layer 2/3 Under Isoflurane Anesthesia” (in preparation)
- J Noueihed, **D Carbonero**, FR Fernandez, JA White, “Multisession Processing of Multiphoton Calcium Imaging” (under review)
- RR Besser, A Alassaf, **D Carbonero**, I Ortiz, R Maciel, M Saporta, A Agarwal, “A Compartmentalized Platform for In-Vitro Assembly of Neuromuscular Junctions and the Implications for Studying Charcot-Marie-Tooth Disease Type 2E” (under review)

INVITED TALKS

-
- | | |
|---|-------------------------------|
| Boston University Neurophotonics Center Tech Talk Tutorial Series | Boston MA, September 22, 2022 |
| Linear Dimensionality Reduction for Analyzing Calcium Recordings (a toolbox) | |
| • Seminar series to spread awareness on technologies under development to foster collaboration between labs | |

TEACHING EXPERIENCE

-
- | | |
|---|-------------------------------|
| Graduate Teaching Fellow | September 2021- December 2021 |
| EK 381 – Probability, Statistics and Data Science for Engineers | |
| Department of Mechanical Engineering, Boston University | |
| Graduate Teaching Fellow | September 2020- December 2020 |
| EK 125 – Introduction to Programming for Engineers | |
| Department of Mechanical Engineering, Boston University | |

LEADERSHIP & MENTORING

-
- Neuronal Dynamics Lab**
- Mentored senior design team developing a machine learning depth of anesthesia classifier using standard neural recordings.
- Understanding the Brain: Neurophotonics – Yearly Symposium**
- Spearheaded planning of 5th annual student led symposium
 - Selected topic (Data Focused Neuroscientific Approaches: Taking a Deeper Look into Neural Networks), invited speakers, and chaired session.

AWARDS/HONORS

-
- | | |
|--|------|
| NSF Research Traineeship Program Understanding the Brain: Neurophotonics Trainee | 2020 |
| NIH Translational Research in Biomaterials Training Grant Trainee | 2019 |
| University of Miami College of Engineering Senior Design Industry Impact Award | 2019 |
| Alpha Eta Mu Beta - National biomedical engineering honor society | 2019 |
| Omicron Delta Kappa Honor Society - National leadership honor society | 2019 |
| Tau Beta Pi Honor Society -National engineering honor society | 2018 |
| University of Miami President’s Scholarship | 2015 |

SKILLS

Programming: Highly Proficient in: Python, MATLAB

Comfortable with: HTML, CSS, R

Familiar with: C, C++, Java

Engineering Design: CAD, SOLIDWORKS, Rapid Prototyping

Software: Arduino IDE, COMSOL Multiphysics, ImageJ

Document Preparation: Microsoft Office, Adobe Illustrator

Certifications: Six Sigma Green Belt

Languages: Native in Spanish, fluent in English
